

## CIF Announces 3M Automotive Aftermarket's Commitment to Annual Donor Program

MECHANICSVILLE, VA, March 6, 2026 – The Collision Industry Foundation (CIF) is delighted to announce that 3M has once again pledged its support to the CIF Annual Donor Program, at the URGENT CARE level, which is the second highest tier of giving. The Program, launched in 2021, was created to secure consistent and essential resources for the Foundation. These resources enable CIF to fulfill its mission of “Answering the Call” by assisting members of the collision repair industry affected by catastrophic events such as accidents, flooding, hurricanes, tornadoes, or wildfires. Contributions to the program are tax-deductible, offering an additional incentive for supporters.

Thanks to the generosity of corporations and individuals, over the past twenty-plus years CIF has helped hundreds of collision repair professionals after disasters. The continued support from 3M for the Annual Donor Program will allow the Foundation to maintain its disaster relief efforts and extend assistance to those in the industry who need it most.

“We are honored to support CIF as a longstanding Urgent Care contributor,” stated Dave Wilk, Vice President of 3M Automotive Aftermarket Division. “We recognize the value CIF brings to the industry for those in need and are thankful for their continued efforts.”
